

We Develop Leaders for Agribusiness Industry

Admission for Georgian Students is Open Now

Full funding available for 4 applicants from Georgia!

(partial scholarships are also available)

ATC offers a 2-year certificate program in Agribusiness in Association with Texas A&M University

Our graduates are armed with the best professional knowledge that meets the highest international standards, excellent command of English and communication skills.

The **Agribusiness Teaching Center (ATC)** offers:

- High quality western-style education in agribusiness.
- Healthy international environment shaping creative and competitive attitude among the students
- High-tech classrooms, computer lab, videoconferencing room, comfortable working environment.

Graduates receive Certificates from the Texas A&M University.

92% of the ATC graduates find professional jobs within the first 6 months after graduation, with the main career paths in Project Coordination & Management, Financial Analysis, Marketing Analysis, etc. More than 40% of graduates are employed in the growing agribusiness and related sectors. The Georgian alumni of ATC have sound achievements in business and academics.

The applicants must have completed at least 2 years of study at their home universities.

You can find the application form at: www.icare.am/atc/future-students/how-to-apply .

Undergraduate students interested in the program should submit the application package by **May 3, 2014**. The application package includes:

1. copy of student record book or Diploma, including enclosure,
2. copy of passport,
3. any supporting document is desirable (awards, certificates, etc.).

Students are required to take a test and pass an interview in English. **For additional information on admission requirements, please contact the Administrative Assistant Ms. Arpine Arakelyan at arparakelyan@gmail.com**
