European Projects

In a nutshell

Access to the European Funds Ecosystem

Monitoring and detection of European Funding opportunities

Analysis of the project idea, selection of the ideal **call**, writing and presentation of the proposal

Support in administrative and financial **management** of projects

Review and improvement of proposals

Search for **partners** for collaborative projects, consortiums

Positioning activities and visibility at European level

Communication and dissemination of project results

Euro-Funding EU Projects in few figures

40 %

**Success
rate**

72

**Projects
managed**

50

**EU Proposals
/year**

87 M€

**€ obtained for
2014 - 2020**

Our Excellence Areas

Environment

Energy

Food & Agro

Water

Health & Biotechnologies

Digital

Infrastructures

The benefits of securing Horizon Europe funds for Companies

Horizon Europe funds have unique advantages which make this opportunity truly rewarding:

- **Pure non-diluting grants.** your company won't need to give any equity or royalties away as part of the funding agreement.
- **Bring stability.** projects run for 2 up to 5 years
- **Fixed and stable funding rate** for the full duration of the project.
- **The funding rate is 50%-70%-100%** of the project's budget.
- **Wide range of available budget per topic.** This may span anywhere between 1 to 15 million euro per project.

European Programmes

Our services

Proposal Writing

We accompany you from Project ideation to submission

- We accompany you in the process of proposal writing perfectly fitting the objectives and requirements of the programme.
- We accompany the consortium through all the steps of the proposal preparation, we provide our expertise on the call and conditions to apply.
- We support in the preparation of the Excellence and Implementation sections.
- We lead the impact section preparation.
- We support in the search for adequate partners.
- We define the budget with the coordinator.
- We submit the full proposal online.
- We smoothen the application process so you can focus on content and not administrative aspects

Project Management

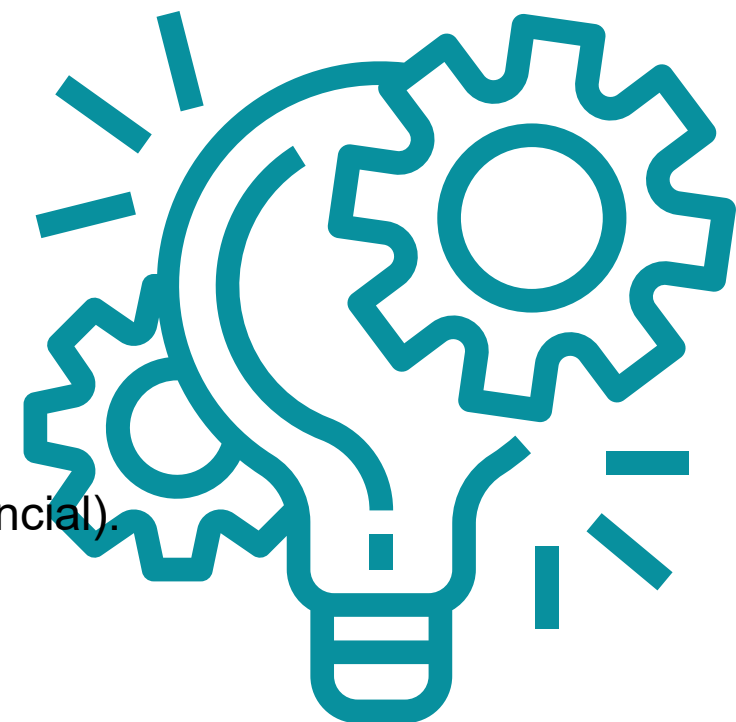

We accompany you over the duration of your project

Negotiation phase:

- Project proposal revision according to the EC's feedback.
- Support in preparation of administrative and financial documents.
- Support in all the communications with the EC.

Management phase:

- Elaboration of technical and financial monitoring tools.
- Financial monitoring every 6 months.
- Support in the elaboration of Periodic and Final Reports (Technical and Financial).
- Support in the elaboration and submission of amendment requests.
- Advise on administrative and financial issues, Programme procedures, etc.
- Compliance and monitoring of Programme requirements.
- Support in the management of the F&T Portal.
- Support in the elaboration of deliverables according to the EC's quality requirements: edition (if requested) and submission through F&T portal.

Search for partners for collaborative projects

Building bridges between our clients and projects

- Identification of relevant calls
- Specification of client's added-value proposition
- Support to partner profile development
- Identification of coordinators and partners
- Organisation of meetings to match interest
- Follow-up of the partner's contribution to the proposal

Critical review of proposals

A tailored service adapted to your needs and resources

- Detailed analysis of the call specificities
- State of the art of the technology (excellence)
- Political context
- Business Plan analysis
- Budget review
- 1 to 3 critical reading prior to the submission

Strategic Positioning service in EU Programmes

Increasing your participation to EU programmes

- Development of positioning strategy
- Definition of (bi-)yearly funding Roadmap
- Identification of key coordinators
- Analysis and recommendations about EU Platforms, partnerships and associations of interest where to become active
- Organisation of meeting agenda across Europe
- Identification of events of interest
- Participation to events on your behalf
- Tailor-made trainings on EU programmes and positioning

Additional consultancy services

Improving the P&L of our clients

- Technical and financial orientation on R&D&I projects
- Feasibility studies
- Overall Project management (PMO) and control
- Business models elaboration, including business plans and getting you ready for investor pitch
- Private capital raising advisory services
- Innovation management
- Training and workshops organization
 - Promotion in EU RD&I funding instruments
 - Financial aspects in Horizon Europe
 - Writing of Horizon Europe proposals

EMPORE: Development of an efficient and sustainable methodology for Emerging Pollutants Removal in WWTPs	LIFE	ENVIRONMENT	1.782.775 €	2016	LTL
ANADRY- Dry anaerobic digestion as an alternative management & treatment solution for sewage sludge	LIFE	ENVIRONMENT	1.610.174 €	2015	Depuración de Aguas del Mediterráneo

Why Euro-Funding?

We define the optimal structure of the European project to maximize financing possibilities

We prepare the winning proposal perfectly fitting the objectives and requirements of the grant program

We carry out an exhaustive diagnosis of the innovative potential and draw up a roadmap providing ad-hoc information on financing possibilities

We allocate the best experts in our team to ensure a winning project

Oscar Salazar
